SUMMARY

AI undergraduate with hands-on experience in frontend development and content production through dual internship roles at Geofinity Solutions Pvt. Ltd. Proficient in HTML, CSS, JavaScript, Python, Flask, and Git. Demonstrated ability to build and deploy full-stack web applications, design responsive interfaces, and deliver creative multimedia assets. Seeking an IT or software internship role to apply and expand technical skills in a professional setting.

PROFESSIONAL EXPERIENCE

Intern — Frontend Developer

Jun 2025 – Sept 2025

Geofinity Solutions Pvt. Ltd., Kathmandu

- Designed and built the company's internal web page using the ERP system's page builder, now actively used across the team daily.
- Implemented responsive layouts with dynamic content, ensuring consistent UI across desktop and mobile devices.
- Collaborated using Git for version control, contributing to a shared codebase alongside senior developers.

Intern — Content Manager

Jun 2025 – Sept 2025

Geofinity Solutions Pvt. Ltd., Kathmandu

- Produced a marketing and explainer video using Runway, Canva, and Adobe Premiere Pro for the company's public-facing campaign.
- Delivered an animated product demo video tailored to the company's new application launch, presented to stakeholders.
- Managed content production timelines and coordinated asset delivery across design and development teams.

PROJECTS

Personal Portfolio Website

Stack: Python, Flask, MySQL, HTML/CSS/JS | Live: portfolio-poqz.onrender.com | GitHub: DancingAlone-us | 2025

- Built and deployed a full-stack personal portfolio site featuring a dark editorial design, scroll-triggered animations, and a MySQL-backed contact/CV system.
- Managed the full deployment pipeline on Render, including environment variables, SSL configuration, and database hosting.

Movie Discovery Frontend

Stack: HTML, CSS, JavaScript | 2024

- Designed and built a responsive movie browsing front end with dynamic UI components and interactive filtering.

Car Company CLI Tool

Stack: Python | 2024

- Developed a command-line application to manage and query car inventory data, with search and filter functionality.

EDUCATION

BSc (Hons) Computer Science — Artificial Intelligence

2024 – 2028

The British College, Kathmandu (affiliated with University of the West of England)

- Coursework: Algorithms & Data Structures, Interaction Design, AI Fundamentals.

+2 in Science

2022 – 2024

Global School of Science, Kathmandu

- Graduated with a GPA of 3.59 / 4.0.
